

Tinder introduces Prompts to help express yourself and increase Match potential

National, 1st June: Did you hear? There's a new way to put your personality front-and-center on Tinder.

The world's most popular app for meeting new people has new Prompts that display among your profile photos. Writing the perfect bio can be nerve-wracking, so they've introduced a way to share bite-sized glimpses into your personality that can also be great conversation starters.

"With Text Prompts, we're excited to give our members a way to freshen up their profiles, highlight their personalities, and bring out their creative sides with just a few words. We hope that these will lead to more connections and spark conversations during a time when many of us are craving a change in routine and someone new to talk to" added a Tinder spokesperson.

Here's how it works.

1. It just takes three taps to access Text Prompts:

Profile icon in the top right corner of your app

Add Media

Text Prompt

2. Pick your fave(s): The dice in the top left of the screen to see more Prompts. Pick the one(s) that speak to you and provide a response. These will display as a photo, so when potential matches through your profile, they'll be front-and-center. Here are some of our favorites that really show who you are:

1. Song I'm singing while I wash my hands
2. I'm finally binging Television

3. That's it: once you tap "Add", then your Prompt response will be added to your profile photos. You can rearrange the order photos, Loops and Prompts are displayed - or remove them - at any time.

4. Check back

New Prompts will appear as weeks go by. So if you're looking to refresh your profile as the world dates digitally, look no further than Prompts. After all, we know we aren't going anywhere to take new photos.
